Press Release

Clark Regional Wastewater District Receives a Clean Audit Report

Vancouver, WA – The Clark Regional Wastewater District (District) Board of Commissioners are pleased to announce that the District recently received clean financial and accountability audits for calendar year 2018. On June 7, 2019, the Washington State Auditor’s Office released the District’s official audit reports, marking the 31st consecutive year of clean audits.

“We have developed a culture that takes pride in handling the public’s resources properly and in accurately reporting our financial position. We know this is also a top priority for our customers and other stakeholders”, said Ken Andrews, District Finance Director.

The District is also responsible for managing the finances for the Discovery Clean Water Alliance (Alliance), a regional partnership among four local agencies. This was the fifth year the Alliance has also received a clean audit report.

“The District’s Finance team is to be recognized for their efforts in maintaining a high standard of excellence in financial reporting. Our most important asset is not on the financial statements, it is the trust our customers and partner agencies place in the District,” said John Peterson, General Manager.

The State of Washington performs audits of state and local governments to promote accountability, integrity and openness in government.
