| Pump Station Startup: Phase 1 Installation Verification Checklist (To be completed prior to start of Phase 2) | | | | | | Engineer | Inspector | Operations - Electrical | Operations - I&C | Operations - Pump Crew |
|---|---|-------------|--------|------------|-------------------------|----------|-----------|----------------------------|------------------|---------------------------|
| Project Name, | | | | Contractor | Construction Manager | | | | | |
| Location | | | | | | | | | | |
| Location | All electrical or other conduits installed and tagged | | | | | | | | | |
| | All wiring installed, terminated, tagged, and insulation tes | ted | | | | | | | | |
| | All grounding systems installed | | | | | | | | | |
| | Permanent utility power installed - Record # of Phases & | Actual | | | | | | | | |
| | Control Panels, MCC, ATS, PLC, Radio, level controls, insta | lled | | | | | | | | |
| | Protective devices set and checked | | | | | | | | | |
| Field Installation/ | UL Certification on Control Panel, all components per spe | cs | | | | | | | | |
| Testing | Radio antenna installed and height checked | | | | | | | | | |
| 0 | Piping and components installed, coated, and tested | | | | | | _ | | | |
| | Generator installed and anchored, name plate data transf | | | | | | | | | |
| | All other equipment installed and anchored (including tar Equipment and components labeled as required | iks) | | | | | | | | |
| | Kiosk Structure constructed or installed and anchorage in | cnoctod | | | | | | | | |
| | Kiosk Structure constructed of installed and anchorage in | specieu | | | | | | | | |
| | Site lighting installed and photocells adjusted | | | | | | | | | |
| | Generator Load Bank (SWCAA Permit Req'd) | | | | | | | | | |
| Field acceptance | Automatic or manual transfer switch | | | | | | | | | |
| Field acceptance | Level Controls | | | | | | | | | |
| test (Certification of Proper | Pumps (megger, rotation, oil, coolant, connections) | | | | | | | | | |
| Installation): | Spare Pump (megger, rotation, oil, coolant, connections) | | | | | | | | | |
| installation). | L&I Inspection | | | | | | | | | |
| | Odor Control Metering Pump and Control Panel | | ı | | | | | | | |
| | Elevation | <u>Plan</u> | Actual | | | | | | | |
| | Wet well floor | | | | | - | | | | |
| Elevation | Inflow inlet invert Low manhole (overflow confirmation) | | | | | - | | | | |
| Verification | Wet well rim | | | | | | | | | |
| | Ultrasonic/Multitrode | | | | | | | | | |
| | Pressure transducer | | | | | | | | | |
| Walkthrough | Punch List completed and initialed | | | | | | | | | |
| | P&ID | | | | | | | | | |
| Preliminary As- | Interconnect drawings | | | | | | | | | |
| builts (Final in | Mechanical site drawing | | | | | | | | | |
| Phase 4) | Civil site drawing | | | | | | | | | |
| | Electrical site drawing | | | | | | | | | |
| | Anchorage testing/inspection report | | | | | | | | | |
| | Instrument calibration certifications | | | | | | | | | |
| | Wire pull sheets and conduit schedule | | | | | | | | | |
| Manufacturers | Cable insulation resistance test results Switchboard and MCC testing results | | | | | | | | | |
| statement of | Factory acceptance test on Control Panel | | | | | | | | | |
| installation | Factory acceptance test on MCC | | | | | | | | | |
| motanation | Factory acceptance test on Micc Factory acceptance test results for pump | | | | | | | | | |
| | Factory acceptance test results for generator | | | | | | | | | |
| | Certified on-site generator test by factory rep | | | | | | | | | |
| | Certified on-site generator noise level test at property line: dB | | | | | | | | | |
| Submittals | Draft O&M Manuals (incorporating all approved submittals) | | | | | | | | | |
| | Freshwater Test Plan | | | | | | | | | |
| | Agenda for Contractor provided training day | | | | | | | | | |
| | Schedule for Phases 2 through 4 | | | | | | | | | |
| | Other as required by contract provisions | | | | | N. C | | | | |
| _ | | | | | | | | More | on re | verse. |
| Operations Phas | se 1 Checklist Approval: | | | | | | | | | |
| Construction Ph | ase 1 Checklist Approval: | | | | | | | | | |

Add to checklist if applicable to specific project:

| | Water service installed and pressure tested | | | | |
|---|--|--|--|--|--|
| | All pneumatic lines installed and tested | | | | |
| | Permeant hoist systems test by manufacturer as applicable | | | | |
| | Cathodic protection installed and tested | | | | |
| | HVAC | | | | |
| Building Systems (also Building Inspector): | Plumbing | | | | |
| | Electrical | | | | |
| | Lighting (interior and exterior) | | | | |
| | Fire Alarm | | | | |
| | Storm drain | | | | |
| | Protective devices coordination study, arc-flash study and labelling by professional | | | | |

Optional Not Applicable

| Pump Station Startup: Phase 2 Functional Demonstration Checklist (To be completed prior to start of Phase 3) All Phase 2 tests require two week notice to District | | | | | | Engineer | Inspector | Operations - Electrical | Operations - I&C | Operations - Pump Crew |
|--|---|--|--|--|--|----------|-----------|----------------------------|------------------|---------------------------|
| Project Name, Location | | | | | | | | | | |
| Remote | Antenna Alignment (| d Hookup, connectors and conduits Contractor provides bucket truck) | | | | | | | | |
| Telemetry Unit | Communications Programming and Testing I/O Test Modem Level Control Calibration Field Verified 5 point verification of the pressure transducer (attach calibration record) | | | | | | | | | |
| System Demo | Pumping Systems | Pump Set Pump Rotation Guide rails Crane as | | | | | | | | |
| System Demo | Generator and fuel tank, transfer switch, 5 pump cycles Switchboard/MCC, cabinet lighting, heaters, cooling fans, all functions Instrumentation Security System/Fire Alarm including cabinets and other as applicable | | | | | | | | | |
| Walkthrough | Odor Control System Punch List completed | | | | | | | | | |

| Pump Station Startup: Phase 3 Operational Testing & Startup Checklist (To be completed prior to start of Phase 4) | | | | Engineer | Inspector | Operations - Electrical | Operations - I&C | Operations - Pump Crew |
|---|--|--|--|----------|-----------|----------------------------|---------------------|---------------------------|
| Project Name, Location | | | | | | | | |
| 1. 5-Day Freshwater Test 2. | Level change Start of Test: WW/HL & LL Alarms verified, 4 cycles each. Pump cycling Daily checks AM and PM daily checks, Cont. and District, Recorded. Holding tank, all hoses, fittings, valves, etc. secure, no leaks. Pull pumps, check oil, impeller, volute, etc. (at start and completion of test) Run pumps off of generator power Site lighting, SCADA, Alarms, etc. active Site specific: Site security: WW access secured/locked, fencing, gates Cabinet heaters, fans, etc., record outside temps. Pump Crew Phase III Punchlist Generated Pump Crew Phase III Punchlist Completed Start date: Stop date: Pumping Systems Generator as applicable, load bank & fuel tank, transfer switch, identify phase at generator. Switchboard/MCC | | | | | | | |
| Contractor Provided Training Day | Instrumentation Security Systems Fire Alarm Other Systems as applicable | | | | | | | |
| 3. Station Cleanup | Remove all temporary testing components, test plates, etc., after fresh water test Remove all contractor equipment from site/asset area. Operations and Maintenance Approval Letter Issued Final Station cleanup Fill generator fuel tank (80% full) and test fuel Final Punchlist generated and distributed prior to Step 4 | | | | | | | |
| 4. Substantial Completion | Substantial Completion Issued | | | | | | | |
| 5. Transfer of Access and Operations | Replace contractor lock with District locks, No Contractor Access w/o Rep. SCADA turned on Operations ready to accept maintenance & operations of station Update Contractor Redline Drawings Updated Inspector Redline Drawings | | | | | | | |
| 6. Connect to Sewer | Verify downstream systems operational and connected Allow sewage into facility Air valves confirmed functional Abandon items as applicable. Coordinate with Operations | | | | | | | |
