Press Release

Sewer Construction to Bring Temporary Closure on NE 99th Street (from NE 107th Avenue West to the Clark County Landfill)

Vancouver, WA – NE 99th Street is scheduled to be closed temporarily for sanitary sewer repairs from NE 107th Avenue west to where the road dead ends at the Clark County landfill. The closure is expected to begin on Monday, October 31, 2022, and be in place until December 31, 2022. Closure start and end dates are weather dependent.

Access will be maintained for residents living along the road, as well as for emergency service vehicles, mail, and other deliveries. Other through traffic will need to use alternative routes. A signed detour route will be in place during construction.

The Clark Regional Wastewater District has been working with Clark County Public Works to coordinate the installation of sanitary sewers as part of the NE 99th Street County Road Project (NE 94th Avenue to SR503). Tapani Inc. of Battle Ground, WA, will be repairing the 24-inch diameter gravity sewer main between the Clark County landfill and NE 108th Avenue.

If you have questions or comments about the project, please contact the construction manager by phone or email.
